FIRM OVERVIEW

Kitchell International - MENA is a diversified firm that offers a wide variety of construction, management and real estate services including program and construction management, general contracting, design/build, real estate development, property management, and refrigeration/air conditioning wholesaling.

Brief History

Founded by Samuel F. Kitchell in 1950, Kitchell began as a small, local building contractor. The company was a pioneer in developing the construction management approach in the western U.S. in the 1960s and established its reputation for successfully managing complex commercial, industrial and institutional building projects.

In 1969, it founded Doubletree, Inc. Before the corporation sold its controlling interest in Doubletree in 1978, Kitchell had developed 2,300 hotel/motel rooms throughout the U.S. Throughout its history, Kitchell has been recognized locally, nationally and internationally for its performance, innovation, financial strength, business practices and quality of work.

In 1978, Kitchell Corporation created Kitchell CEM (Capital Expenditure Managers), a subsidiary whose corporate mission is to provide project and construction management services primarily to the public sector.

Since Kitchell CEM's inception, we have completed over \$12.4 billion in public works construction representing more than 625 public sector projects. These projects include courts, municipal office facilities, parking structures, K-12 schools and higher education facilities, civic centers, detention and criminal justice, healthcare, sports, police and fire stations, and performing and multicultural arts centers.

Having been in business for 60 years, Kitchell has proven its long-term stability and financial strength.

Culture & Values

Since its inception, Kitchell International-MENA has built a strong culture that is the foundation for our business philosophy and management practices. Throughout our entire organization, we embrace and live by our corporate values of:

Integrity, Credibility and Honesty

Quality of Work and Service

Client Satisfaction

People Development

Kitchell specializes in the program and construction management of public sector projects.

MARKET SECTORS

In 1991, Kitchell began a formal company-wide commitment to continuous quality improvement. Over the years, we have made great strides in understanding our clients' requirements and performing work that meets those requirements. The results show in the consistent profitability of all of Kitchell's operating subsidiaries, as well as in the high level of customer loyalty that we enjoy in all of our targeted markets.

PROJECT EXPERIENCE

Kitchell has managed the planning, design and/or construction of projects of over \$12.4 billion which include municipal office facilities, public safety facilities, fire stations, courts, performing arts centers, hospitals and health care facilities, theaters, museums, civic centers, universities, K-12 schools and criminal justice facilities. Most of these projects involve the construction of new facilities or renovation of existing facilities incorporating fast track schedules with critical completion dates and tight budgets.

Working closely with our clients to define practical, viable, responsive project goals, Kitchell supports our municipal, county, education and state clients in achieving the highest and most responsible use of their dollars, to the satisfaction of administrators, user groups, and their constituencies at large.

The following are a few examples of our representative projects.

Office/Municipal Experience

Kitchell blends quality with value to corporate headquarters, research facilities, public office buildings and office/industrial parks.

Building the best

As a project/construction manager and a builder, we bring high-quality shell and tenant improvement construction, providing tenants with a functional, aesthetic work environment.

Real Estate Development/Retail Experience

We know the retail business. Over the past decade, Kitchell successfully built more than five-million square feet of retail space both as a developer of community and neighborhood shopping centers and as a builder of large regional malls and lifestyle centers.

Rules of the market

We know that in the competitive world of retail, schedules drive the project. Equally important, we also know that tenants drive schedules, so we make sure we understand and meet their requirements.

When expertise counts

Kitchell's proven methods can accelerate project delivery, enhance marketability and promote coordination with mall management, permitting and approval agencies and tenant contractors. We deliver.

Education Projects

For more than 30 years, Kitchell has been helping school districts, colleges and universities overcome the many challenges of expanding, renovating and replacing facilities. Kitchell has managed more than \$1.3 billion in educational construction programs, an expertise that could prove invaluable when tackling your next major project.

We understand the obstacles that our educational clients face when expanding, renovating or replacing education facilities. They include: phasing projects to minimize disruption to classes and overall operations, maintaining schedules, budgets and quality, distributing improvements around the campuses evenly to ensure uniform quality of the facilities, and maintaining public support for funding programs. We specialize in developing, implementing and controlling detailed plans that bring projects in on-time, within budget and with the highest possible quality.
